Uzbekistan

Uzbekistan is a Central Asian nation and former Soviet republic. It's known for its mosques, mausoleums and other sites linked to the Silk Road, the ancient trade route between China and the Mediterranean. Samarkand, a major city on the route, contains a landmark of Islamic architecture: the Registan, a plaza bordered by 3 ornate, mosaic-covered religious schools dating to the 15th and 17th centuries.

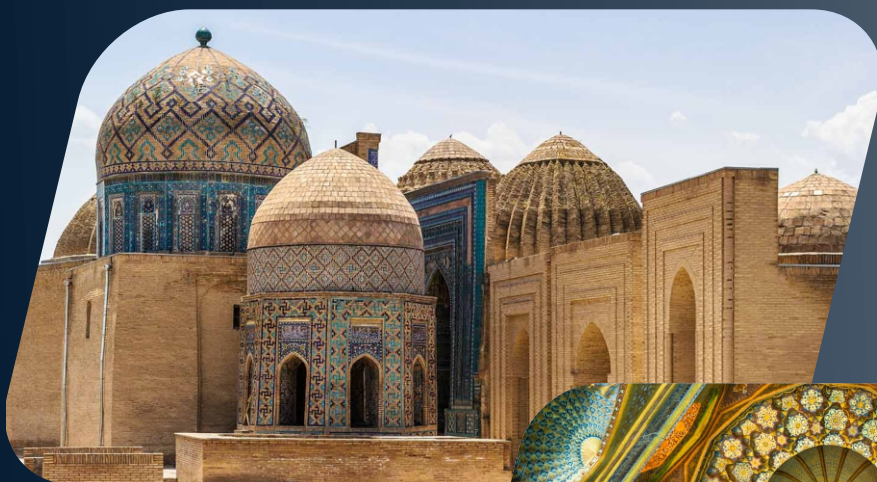

The rich history of Uzbekistan goes back thousands of years. According to the archaeologists, this is one of the oldest places of human life. It is known that the territory was inhabited long before our era, even in the early Paleolithic, as shown by the finds, which are represented by the dwellings found in the Baysun-Tau Mountains and the instruments – in Samarkand. Neanderthals lived here in the late Paleolithic. Their burial found in the Teshik-Tash grotto belongs to the Mousterian culture. Over the thousands of years, the great empires were formed and disintegrated on the territory of our country, which left an undeniable mark in the history and culture of Uzbekistan.

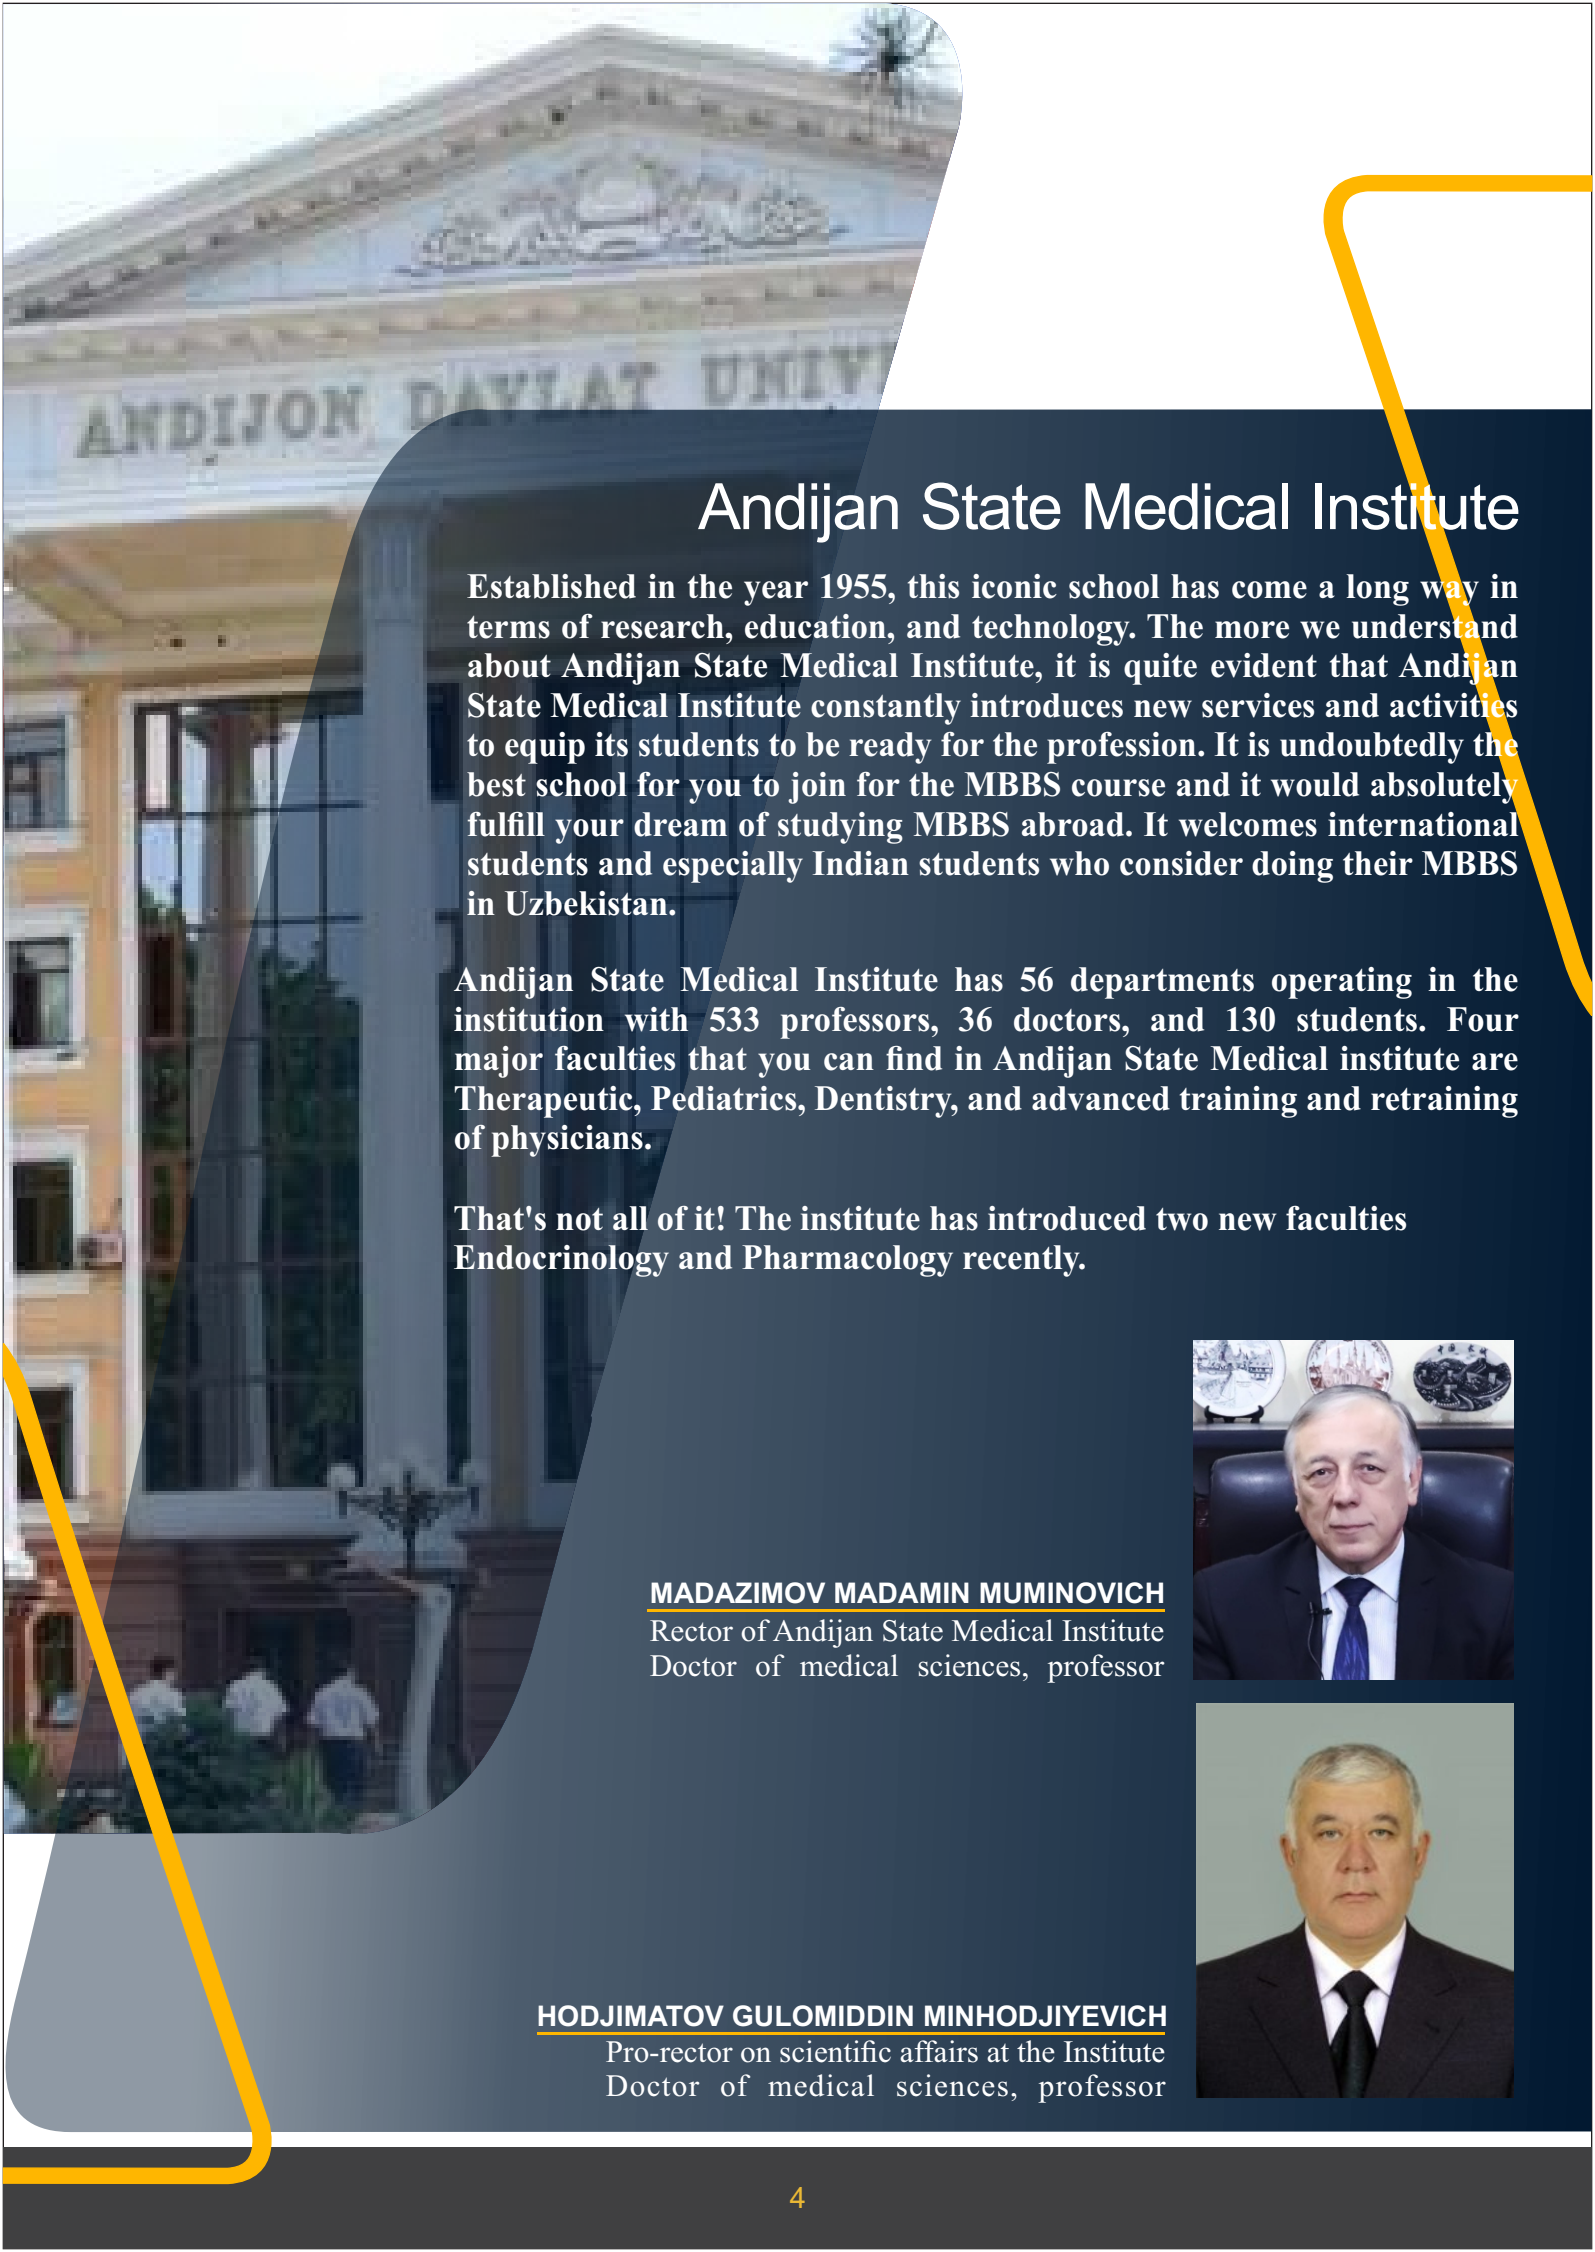

Andijan City

Andijan State Medical Institute is located in the beautiful city of Andijan in Uzbekistan, a historical city with a great story to tell. It is situated in the south-eastern part of Fergan Valley. It is the largest city of Fergan valley with over 350,000 people but it is said to be the smallest region in Fergan valley. It is also the capital city of Fergan Valley. Another notable feature of Andijan is that it is a significant city on the great silk route to China. It had been a potent center of trades. From the Soviet era, it started its way up to becoming an industrial city. India is a culturally rich and diverse nation. Indian students would blend in fine in Andijan. Not only that you get to do your MBBS course abroad but also you would get a chance to explore a traditional city in Uzbekistan. If you are an MBBS aspirant looking forward to study MBBS in Uzbekistan, Andijan State Medical Institute will be a good choice for you!

Climate: Uzbekistan has extreme climatic conditions, in the summer it heats up to 40 degrees Celsius to -2 degrees Celsius in the winter. Uzbekistan receives rain in the winter and spring seasons. You might have to prepare yourself for a strange yet beautiful climate!
